

Vitamin C Complex

Description

Product number B003 - Vitamin C-Complex 100 tablets

Combination of vitamin C and citrus bioflavonoids. Ascorbic acid is a water-soluble form of vitamin C. People cannot produce vitamin C themselves and must take this nutrient with food.

In the human body, vitamin C contributes to:

- The protection of cells against oxidative stress and the regeneration of the active form of vitamin E.
- The normal formation of collagen for the normal functioning of the blood vessels, cartilage, bones, skin, teeth and gums.
- The normal functioning of the immune system and ensures good resistance.
- A normal energy-yielding metabolism and a reduction in fatigue.
- The normal functioning of the nervous system and normal psychological function.
- The absorption of iron from the diet.

Ingredients and % Reference Intake per tablet:

Vitamin C (L-ascorbic acid) 1000 mg (1250% RI)

Citrus bioflavonoids 50 mg

Fillers: Maltodextrins (from corn), microcrystalline cellulose, rice starch. Anti-caking agent: canteen seed oil, diglyceride, silica, vegetable magnesium stearate. This product contains no gluten, lactose or milk proteins.
